## Peak Giving Tree Guidelines

Each request will be reviewed on its own merits. Peak Giving Tree cannot provide any guidance as to whether a particular request will be favorably or unfavorably reviewed.

While we hesitate to put a dollar value on our levels of giving, our contribution levels are normally smaller than larger. In our efforts to support as many organizations as possible, funding amounts are limited.

Many factors are included in our decision making process, including our budget, similar groups we may already be supporting, and the community impact potential for each donation. While we would like to say yes to every request we receive, it's not possible within our budget restrictions.

In keeping with our philosophy to support as many organizations as possible, we ask that each group make one request per year. Your organization should decide which event or program would benefit most from our contribution and contact us at that time. Please remember that nothing is automatically repeated the following year unless we have committed to a multi-year pledge. A new request should be made each year.

Most Common Reason for Denial include:

- 1.) Does not meet Peak Giving Tree Guidelines
- 2.) Failure to provide complete information
- 3.) Budget constraints
